SCOPE OF THE JOURNAL

Advanced Computational Intelligence: An International Journal (ACII) is a bi monthly open access peer-reviewed journal that publishes articles which contribute new results in all areas of computational intelligence. The goal of this journal is to bring together researchers and practitioners from academia and industry to focus on advanced computational intelligence concepts and establishing new collaborations in these areas.

Authors are solicited to contribute to this journal by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the computational intelligence.

Topics of interest within the scope of this issue include, but are not limited to, the following area:

- Artificial intelligence
- Cellular automata
- Connectionist systems
- Distributed, Multimedia, Human Interface Systems
- Evolutionary computation
- Fuzzy logic
- Genetic algorithms
- Hybrid intelligent systems, Adaptation and Learning Systems
- Knowledge mining
- Neural networks
- Pattern recognition
- Self-organizing systems
- Soft computing
- Statistical models
- Symbolic machine learning

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. weak Accept with major changes
4. Reject

The review process may take approximately two–three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.
