SCOPE OF THE JOURNAL

GRAPH-HOC is a quarterly open access peer-reviewed journal focuses on the applications of graph theory in different areas of wireless ad hoc networks such as Mobile Ad hoc Networks (MANETs), Vehicular Ad hoc Networks (VANETs) and sensor networks. Graph theoretic concepts are applied in several fundamental issues such as connectivity, data gathering, routing, mobility, energy efficiency and topology control. Papers submitted for the Journal should focus on a problem that is of both theoretical as well as practical interest in the area of ad hoc networks and sensor networks. This journal will thus provide a platform for researchers from both theoretical and practical domains of ad hoc networks to meet and exchange their ideas.

Topics of interest include, but are not limited to, the following

- Distributed extensions of centralized graph theoretic routing algorithms
- Connectivity analysis under different mobility models
- Data gathering algorithms and protocols for sensor networks
- Applications of Random Graph theory in ad hoc networks and sensor networks
- Algorithms for scheduling and resource allocation problems
- Algorithms for topology control and power assignment
- Evacuation routing algorithms and protocols for vehicular ad hoc networks
- Secure routing algorithms and protocols based on graph theory
- Approximation heuristics for NP-complete problems related to ad hoc networks

Members of the Editorial Board

Editor In Chief :

Natarajan Meghanathan, Jackson State University, USA

Editorial Board :

Akhlaq Ahmad Bhatti, National University of Computer & Emerging Sciences Lahore, Pakistan
Andras Farago, The University of Texas at Dallas, USA
Chi-Chang Chen, I-Shou University, Taiwan
G.N.Purohit, Banasthali University, India
Hongmei Chi, Florida A&M University, USA
Mahmoud Ibrahim Moussa, Benha University, Egypt
Maulin Patel, Philips Research N.A., USA
Neeraj Mittal, The University of Texas at Dallas, USA
R. Chandramouli, Stevens Institute of Technology, USA
Sathish Kumar A.P, PSG Institute of Advanced Studies, India
Srinivasan Krishnamurthy, Cisco Systems, USA
Ankit Chaudhary, Maharishi University of Management, USA
Chin-Chih Chang, Chung Hua University, Taiwan
Prasenjit Chanak, Indian Institute of Engineering Science and Technology, India
Abdul kadir Ozcan, Karatay University, Turkey
Munivara Prasad K, Jawaharlal Nehru Technological University, India
Sornam M, University of Madras, India
PushpinderSingh Patheja, Bansal Institute of Science and Technology, India
Kannan A, K.L.N.College of Engineering, India
Sandhya M, B.S.Abdur Rahman University, India
Gaurang Panchal, IIT Kharagpur, India
Mansaf Alam, Jamia Millia Islamia, India
Vuda Sreenivasa Rao, Bahir Dar University, Ethiopia
Anamika Ahirwar, Rajiv Gandhi Technical University, India
Jeremy (Zheng) Li, University of Bridgeport, USA
Govindraj B. Chittapur, Basaveswar Engineering College, India
Kewen Zhao, University of Qiongzhou, P.R.China
Krishna Prasad P.E.S.N, Prasad V. Potluri Siddhartha Institute of Technology, India
Isa Maleki, Islamic Azad University, Iran

Paper Submission & Manuscript preparation Guide

Paper Submission

Authors are invited to submit papers for this journal through E-mail graphhoc@yahoo.com Or graphhoc@airccse.org. Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.

Copy Right Form

After submitting final manuscript, you can get copy right form from AIRCC secretary

Special Issue Proposal

Special issue will be published for selected papers from ITNG Software Security, Las Vegas, Nevada, USA
