SCOPE OF THE JOURNAL

The International Journal of Ambient Systems and applications is a quarterly open access peer-reviewed journal that publishes articles which contribute new results in all areas of ambient Systems. The journal focuses on all technical and practical aspects of ambient Systems, networks, technologies and applications. The goal of this journal is to bring together researchers and practitioners from academia and industry to focus on advanced ambient Systems and establishing new collaborations in these areas.

Topics of Interest

Agent Systems, Intelligent Computing and Applications
Autonomic Networks and Communications
Cognitive wireless sensor network
Context awareness, social sensing and inference Data Management
Dependable, Reliable and Autonomic Computing
Embedded Systems and Software
Emerging Networking, Tracking and Sensing Technologies
Ergonomics and product prototyping
Healthcare Systems
Intelligent and self-organizing transportation networks & services
Multimedia and Social Computing
Multimodal Interfaces
Service and Semantic Computing
Service Oriented Computing for Systems & Applications
Smart Environments and Applications
