SCOPE OF THE JOURNAL

International Journal on Cryptography and Information Security (IJCIS) is an open access peer reviewed journal that focuses on cutting-edge results in applied cryptography and Information security. It aims to bring together scientists, researchers and students to exchange novel ideas and results in all aspects of cryptography, coding and Information security.

Topics of interest include, but are not limited to the following:

- Cryptographic protocols
- Cryptography and Coding
- Untraceability
- Privacy and authentication
- Key management
- Authentication
- Trust Management
- Quantum cryptography
- Computational Intelligence in Security
- Artificial Immune Systems
- Biological & Evolutionary Computation
- Intelligent Agents and Systems
- Reinforcement & Unsupervised Learning
- Autonomy-Oriented Computing
- Coevolutionary Algorithms
- Fuzzy Systems
- Biometric Security
- Trust models and metrics
- Regulation and Trust Mechanisms
- Data Integrity
- Models for Authentication, Trust and Authorization
- Wireless Network Security
- Information Hiding
- Data & System Integrity
- E-Commerce
- Access Control and Intrusion Detection
- Intrusion Detection and Vulnerability Assessment
- Authentication and Non-repudiation
- Identification and Authentication
- Insider Threats and Countermeasures
- Intrusion Detection & Prevention
- Secure Cloud Computing
- Security Information Systems Architecture and Design and Security Patterns
- Security Management
- Security Requirements (threats, vulnerabilities, risk, formal methods, etc.)
- Sensor and Mobile Ad Hoc Network Security
- Service and Systems Design and QoS
- Network Security
- Software Security
- Security and Privacy in Mobile Systems
- Security and Privacy in Pervasive/Ubiquitous Computing
- Security and Privacy in Web Services
- Security and Privacy Policies
- Security Area Control
- Security Deployment
- Security Engineering
- Security for Grid Computing
- Security in Distributed Systems

Paper Submission & Manuscript preparation Guide

Paper Submission

Authors are invited to submit papers for this journal through Submission system. Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page.

Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. weak Accept with major changes
4. Reject

The review process may take approximately two ~ three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.
