Scope & Topics

The **International journal of Computer Networks & Communications (IJCNC)** is a quarterly open access journal that publishes articles which contribute new results in all areas of **Computer Networks & Communications**. The journal focuses on all technical and practical aspects of **Computer Networks & data Communications**. The goal of this journal is to bring together researchers and practitioners from academia and industry to focus on advanced networking concepts and establishing new collaborations in these areas.

Authors are solicited to contribute to this journal by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the Computer Networks & Communications.

Topics of interest include, but are not limited to, the following

- Network Protocols & Wireless Networks
- Network Architectures
- High speed networks
- Routing, switching and addressing techniques
- Next Generation Internet
- Next Generation Web Architectures
- Network Operations & management
- Adhoc and sensor networks
- Internet and Web applications
- Ubiquitous networks
- Mobile networks & Wireless LAN
- Wireless Multimedia systems
- Wireless communications
- Heterogeneous wireless networks
- Measurement & Performance Analysis
- Peer to peer and overlay networks
- QoS and Resource Management
- Network Based applications
- Network Security
- Self-Organizing Networks and Networked Systems
- Mobile & Broadband Wireless Internet
- Recent trends & Developments in Computer Networks
