SCOPE OF THE JOURNAL

International Journal of Computer Science, Engineering and Applications (IJCSEA) is an open access peer-reviewed journal that publishes articles which contribute new results in all areas of the computer science, Engineering and Applications. The journal is devoted to the publication of high quality papers on theoretical and practical aspects of computerscience,EngineeringandApplications.

All submissions must describe original research, not published or currently under review for another conference or journal.

Topics of interest include but are not limited to, the following

Algorithms and Bioinformatics
Computer Architecture and Real time Systems
Database and Data Mining
Dependable, reliable and autonomic computing
Distributed and parallel systems & algorithms
DSP/Image Processing/Pattern Recognition/Multimedia
Embedded system and software
Game and software engineering
Geographical Information Systems/ Global Navigation Satellite Systems (GIS/GNSS)
Grid and scalable computing
Intelligent Information & Database Systems
IT policy and business management
Mobile and ubiquitous computing
Modeling and Simulation
Multimedia systems and services
Networking and communications
Performance Evaluation
Programming Languages
Security and Information Assurance
Soft Computing (AI, Neural Networks, Fuzzy Systems, etc.)
Software Engineering
Web and internet computing
Theoretical computer science
Natural Language Processing
Operating Systems
Compiler Design
Computer Education

Review process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.
