SCOPE OF THE JOURNAL

Soft computing is likely to play an important role in science and engineering in the future. The successful applications of soft computing and the rapid growth suggest that the impact of soft computing will be felt increasingly in coming years. Soft Computing encourages the integration of soft computing techniques and tools into both everyday and advanced applications. This Open access peer-reviewed journal serves as a platform that fosters new applications for all scientists and engineers engaged in research and development in this fast growing field.

Topics of interest include, but are not limited to, the following

- Fuzzy Systems
- Neural Networks
- Machine learning
- Probabilistic Reasoning
- Evolutionary Computing
- Pattern recognition
- Hybrid intelligent systems
- Software agents
- Morphic Computing
- Image processing
- E-commerce, e-medicine
- Rough Sets
- Symbolic machine learning
- Wavelet
- Signal or Image Processing
- Vision Recognition
- Biomedical Engineering
- Telecommunications
- Reactive Distributed AI
- Nano & Micro-systems
- Data Visualization

PAPER SUBMISSION & MANUSCRIPT PREPARATION GUIDE

Paper Submission

Authors are invited to submit papers for this journal through **Email: ijsc@airconline.com** or through **[Submission System](#)**. Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.

Publication charges: **120 USD** (Maximum 20 pages)

Publication Frequency- Quarterly

February, May, August, November
