## Session 1: Adhoc and Sensor Networks

Secure Key Exchange and Encryption Mechanism for Ad Hoc Networks \( \cdots \) 1  
*S. Sumathy and B. Upendra Kumar*

Impact of Sink Mobility on Network Performance in Wireless Sensor Networks \( \cdots \) 7  
*K. Thanigaivelu and K. Murugan*

Intelligent Clustering in Wireless Sensor Networks \( \cdots \) 12  
*Ehsan Heidari and Ali Movaghar*

A Novel Algorithm for Graded Precision Localization in Wireless Sensor Networks \( \cdots \) 18  
*Sanat Sarangi and Subrat Kar*

MSTBBN: M-way Search Tree Based Base Station to Node Communication \( \cdots \) 23  
*Pankaj Gupta, Tarun Bansal, and Manoj Misra*

Energy Efficient Wireless Sensor MAC Protocol for Collision Avoidance \( \cdots \) 28  
*Abhishek Samanta, Dripto Bakshi, Amitava Mukherjee, and Mita Nasipuri*

Neural Network Based Energy Efficient Clustering and Routing in Wireless Sensor Networks \( \cdots \) 34  
*Neeraj Kumar Nehra, Manoj Kumar, and R.B. Patel*

Session 3: Measurement and Performance Analysis

Performance Study of Large Block FEC with Drop Tail for Video Streaming over the Internet ......................................................... 109
  Omar Almomani, Osman Ghazali, and Suhaidi Hassan

High Performance Image Steganalysis Through Stego Sensitive Feature Selection Using MBEGA ........................................... 113
  S. Geetha, Siva S. Sivatha Sindhu, V. Kabilan, and N. Kamaraj

Accuracy of 3D Location Computation in GSM Through NS2 .......................................................... 119
  Anand Gupta, Harsh Bedi, M.S. Don Bosco, and Vinay Shashidhar

Cricket/Mica2 Based Discrete Event Simulator for WiHoc Ver.1.0 Localization Analysis .......................................................... 123
  Shamala S., Sangeetha T., and Moqry A.

Performance Improvement of Wireless Sensor Networks Using Layered Space Time Codes ...................................................... 129
  M.A. Bhagyaveni and K. Rajeswari

The FN Quadratic Marking/Dropping Probability Function .......................................................... 135
  Mohammed M. Kadhum and Suhaidi Hassan

Performance Analysis of MANET under Blackhole Attack .......................................................... 141
  Anu Bala, Munish Bansal, and Jagpreet Singh

Comparative Study of Various Cooling Schedules for Location Area Planning in Cellular Networks Using Simulated Annealing .......................................................... 146
  Nilesh B. Prajapati, Rupal R. Agravat, and Mosin I. Hasan

Session 4: Network Architectures, Protocols, and Routing

A Pascal Graph Property and Computer Network Topology .......................................................... 151
  Sanjay Kumar Pal, Samar Sen Sarma, and Subhrendu Guha Neogi

Perceptual Features Based Isolated Digit and Continuous Speech Recognition Using Iterative Clustering Approach .......................................................... 155
  A. Revathi and Y. Venkataramani

Just Queueing (JQ): Scheduling Algorithm for the Internet .......................................................... 161
  Yaser Miaji and Suhaidi Hassan

Performance of Dominating Sets in AODV Routing Protocol for MANETs .......................................................... 166
  A. Nagaraju and B. Eswar

On-body Packet Routing Algorithms for Body Sensor Networks .......................................................... 171
  Muhammad Quwaider and Subir Biswas

End-to-End Network Delay-Constrained for QoS Multicast Routing .......................................................... 178
  Balakannan S.P, Yier Yan, Jae Seung Yang, and Moon Ho Lee

Enhancing QoS and QoE in IMS Enabled Next Generation Networks .......................................................... 184
  Kamaljit I. Lakhtaria
Session 5: Network Operations and Management

Securing Internet Protocol (IP) Storage: A Case Study ................................................................. 190
  Siva Rama Krishnan Somayaji and Ch. A.S. Murty
Tree-Like Peer-to-Peer Symmetric Key Management in Mobile Ad Hoc Network .......................................................................................................................... 196
  Girish Kumar Patnaik and M.M. Gore
Service Coverage Bounds Through Efficient Load Approximation in UMTS Network Planning .................................................................................................................. 202
  Sasthi C. Ghosh, Roger M. Whitaker, Stuart M. Allen, and Steve Hurley
An Energy-Conserving Topology Maintenance Algorithm for MANETs ................................................. 208
  S. Muthuramalingam, P. Janani, B. Bavya, and R. Rajaram
Agent Based Web Services with RuleML for Network Management .................................................... 214
  Mydhiili K. Nair and V. Gopalakrishna
A Status Monitoring System Design/Implementation for Home Appliances Controlled by Home Server ........................................................................................................... 220
  Boyoungh Lee, Sojung Yang, and Deokjai Choi
A Genetic Algorithm Based Oblivious Image Watermarking Scheme Using Singular Value Decomposition (SVD) .......................................................................................... 224
  B. Jagadeesh, S. Srinivas Kumar, and K. Raja Rajeswari
Energy Based Quantization for Image Compression Using Contourlet Transform ........................................ 230
  Kilari Veeraswamy, B. Chandra Mohan, Y.V. Bhaskar Reddy, and S. Srinivas Kumar

Session 6: Network Security, Trust, and Privacy

PhishNet: Enhancing the Security Aspect of IMS Users ........................................................................ 235
  Reshmi Maulik and Nabendu Chaki
Fault Analysis of Security Policy Implementations in Enterprise Networks ................................................. 240
  P. Bera, S.K. Ghosh, and Pallab Dasgupta
Multicrypt: A Provably Secure Encryption Scheme for Multicast Communication .......................................................... 246
  A. John Prakash and V. Rhymend Uthariaraj
An Attack Vector for Deception Through Persuasion Used by Hackers and Crackers .......................................................... 254
  Mosin I. Hasan and Nilesh B. Prajapati
Anonymous but Traceable IP Address-Based Communication System ......................................................... 259
  Keiichi Sakakima, Shingo Ata, and Hiroshi Kitamura
A Scheme for the Design and Implementation of a Distributed IDS ....................................................... 265
  K.B. Chandradeep
Secure Mobile Multicast Handoff Mechanisms Using a Time-Limited Key .................................................. 271
  Miyeon Yoon, Kwangkyum Lee, Mijoo Kim, and Yongtae Shin
A Middleware Architectural framework for Vehicular Safety over VANET  
(InVANET) .................................................................................................................................277

Saravanan K., Arunkumar Thangavelu, and K. Rameshbabu

An Approach for Security Assessment of Network Configurations Using Attack Graph .................................................................283

Nirnay Ghosh and S.K. Ghosh

Galaxia: A Semi-decentralized System for Implementing Secure-Group P2P Networks ........................................................................289

Saurav Muralidharan, Sajin Koroth, Nevil Anto, and Rafeeque Pandarachalil

“Reminder: please update your details”: Phishing Trends ..................................................................................................................295

Cynthia Dhinakaran, Jae Kwang Lee, and Dhinaharan Nagamalai

Workshop Papers

GRAPH-HOC 09: First Workshop on Applications of Graph Theory in Wireless Ad Hoc Networks and Sensor Networks

On Some Sufficient Conditions for Distributed Quality-of-Service Support in Wireless Networks ........................................................................301

Ashwin Ganesan

On a Local Heuristic for a Reverse Multicast Forwarding Game .............................................................................................................307

Sarvesh Kumar Varatharajan and Gunes Ercal-Ozkaya

Random Key Graphs—Can They be Small Worlds? ..........................................................................................................................313

Osman Yagan and Armand M. Makowski

Semiring Pruning for Information Dissemination in Mobile Ad Hoc Networks ....................................................................................319

Kiran K. Somasundaram and John S. Baras

A Graph Based Approach to Supporting Reconfiguration in Wireless Sensor Networks ........................................................................326

Wouter Horré, Kevin Lee, Danny Hughes, Sam Michiels, and Wouter Joosen

WiMoNe 2009: First International Workshop on Wireless and Mobile Networks

An Alternative Approach to Find the Fermat Point of a Polygonal Geographic Region for Energy Efficient Geocast Routing Protocols: Global Minima Scheme ........................................................................................................................................332

Kaushik Ghosh, Sarbani Roy, and Pradip K. Das

Analysis of Hierarchical Mobile IP Based Fast Mobility Management Schemes ....................................................................................338

Sajal Saha, Subhasree Bhattacharjee, Rajib Nath Bhownick, Asish K. Mukhopadhyay, and Dhinaharan Nagamalai

Efficient Power-Aware Packet Scheduling for Multiantenna Packet Radio Systems ..................................................................................344

Stanislav Nonchev and Mikko Valkama
Time Domain Equalization Technique Using RAKE-MMSE Receivers for High Data Rate UWB Communication System

Susmita Das and Bikramaditya Das

Vulnerabilities in Some Recently Proposed RFID Ownership Transfer Protocols

Gaurav Kapoor and Selwyn Piramuthu

Anomaly Behavior Analysis for Web Page Inspection

Chia-Mei Chen, Wan-Yi Tsai, and Hsiao-Chung Lin

Fairness Strategy and Scheduling Algorithm for IEEE 802.16 Wireless Access Systems

Sheng-Tzong Cheng, Bo-Fu Chen, and Chih-Lun Chou

NCS 2009: The First International Workshop on Network and Communications Security

Fuzzy Switching Controller for the Security in 802.11 Networks

Xu Huang and Dharmendra Sharma

Performance Evaluation of ADV with AODV for Mobile Ad-hoc Networks

A. Nagaraju and CH. Ramya Krishna

An Agent Based Security Framework for Protecting Routing Layer Operations in MANET

N. Jaisankar, R. Saravanan, and K. Durai Swamy

An Improved Collaborative Recommender System

M.K. Kavitha Devi and P. Venkatesh

A Handoff Management Scheme for Mobile Station in Wireless Body Area Mesh Networks

Jilong Li, Jangkyu Yun, Junhyung Kim, Icksoo Lee, and Kijun Han

An Efficient Routing Protocol Based on Position Information in Mobile Wireless Body Area Sensor Networks

Ki hyun Kim, Ick-Soo Lee, Mahnsuk Yoon, Junhyung Kim, Honggil Lee, and Kijun Han

Analysis and Proposal of Wireless Mesh Network’s Routing Metric for WBAN

Sooyeol Yang, Jeongbae Yun, Jangkyu Yun, Honggil Lee, and Kijun Han

A Self-Adjustable Rate Control in Wireless Body Area Networks

Young-mi Baek, Byung-hwa Lee, Jeongbae Yun, Keuchul Cho, and Kijun Han

Simulation Based Performance Comparison of Community Model, GFMM, RPGM, Manhattan Model and RWP-SS Mobility Models in MANET

Gowrishankar S., SubirKumar Sarkar, and T.G. Basavaraju

iMeasure Security (iMS): A Novel Framework for Security Quantification

Vijayaraghavan V. and Sanjoy Paul

Supporting Negative Authorization in Spatiotemporal Role Based Access Control

Samrat Mondal and Shamik Sural
Message from the General and Program Chairs

On behalf of the Program Committee, it is our great honour to welcome you to this exciting event, The First International Conference on Networks & Communications (NetCoM-2009), held in Chennai, Tamil Nadu, India, from December 27-29, 2009. The objective of NetCoM-2009 is to provide a forum for scientists and engineers in academia and industry to exchange and discuss their experiences, new ideas, research results, and applications about all aspects of Computer networks & communications. An international conference cannot be well organized without the supports and great voluntary efforts of many people and organizations and our main responsibility is to coordinate the various tasks carried out with other willing and talented volunteers.

We would like to thank Program Co-Chairs, Michal Wozniak (Wroclaw University of Technology, Poland), Balasubramanian K, (Lefke European University, Cyprus), and other three publicity chairs for their hard and excellent work on organizing a very strong program committee, outstanding reviewing process to select high-quality papers from a large number of submissions, and making an excellent conference program. All submissions were carefully peer-reviewed by at least two Program Committee members and/or external reviewers (actually, 90% of accepted papers have been peer-reviewed by three Program Committee members and/or external reviewers).

Our special thanks also go to Workshop Chairs, Natarajan Meghanathan (Jackson State University, USA), Zan Zika (University of Central Europe, Slovakia) for their outstanding work to manage workshops, which are a very important part of the NetCoM 2009 event. We are grateful to all workshop organizers for their professional expertise and excellence in organizing the attractive workshops, and other committee chairs, advisory members, and PC members for their great support. We appreciate all of authors who submitted their high-quality papers to the NeTcoM 2009 main conference and workshops.

Last but not least, we would like to greatly thank the NeTCoM 2009 local organizing team for their hard work, nice services, and wonderful local arrangement to hold the conference. We also want to thank AIRCC tech team, for the diligent efforts on the maintenance of the NeTCoM 2009 web page & paper submission system. We thank all of you for participating in the NetCoM 2009, and hope you find the conference stimulating and interesting.

General Chairs
Sanguthevar Rajasekaran, University of Connecticut, USA

Maode Ma, Nanyang Technological University, Singapore

Henrique Joao Lopes Domingos, University of Lisbon, Portugal
Message from the NetCoM 2009 Program Chairs

On behalf of the Program Committee, it is our great honour and pleasure to welcome you to this exciting event, The First International Conference on Networks & Communications (NetCoM-2009), held in Chennai, Tamil Nadu, India, from December 27-29, 2009.

Overall, we received 285 submissions in the scope of NetCoM 2009, Graph-Hoc 2009, WiMoNe 2009, NCS 2009 from 22 countries around the globe. All submissions were carefully peer-reviewed by at least two Program Committee members and/or external reviewers (actually, 90% of accepted papers have been peer-reviewed by three Program Committee members and/or external reviewers). The manuscripts were then ranked according to their original contribution, technical quality, presentation, and relevance to the themes of the conference. Based on the careful evaluation, 80 papers (from 15 countries) were selected for presentation and inclusion in the main proceedings. This represents approximately a 28% acceptance rate. In NetCoM 2009, three workshops were held in conjunction with the conference:

- First Workshop on Applications of Graph Theory in Wireless Ad hoc Networks and Sensor Networks (GRAPH-HOC 09)
- The First International Workshop on Network & Communications Security (NCS 09)
- The First International Workshop on Wireless & Mobile Networks (WiMoNe-09)

The objective of these workshops is to highlight the spectrum of the main conference, which provides a premier international forum for beneficial academia exchange.

Many individuals contributed to the success of this conference. We would like to take this opportunity to thank all the authors for their submissions—many of whom will travel great distances to participate in this conference and make their valuable contributions. We are certainly indebted to Program Committee members and reviewers who have worked hard to submit their high quality reviews under a tight schedule.

We cordially invite you to join us in Chennai to meet as well as interact with professional in the field of Computer Networks and communications from around the world. We hope you will find the technical program very stimulating, informative, and inspiring. We encourage and anticipate lively interactions between participants on networks & communications, security, wireless network topics for all of us to study and develop further.

Program and Steering Committee Chairs

Natarajan Meghanathan, Jackson State University, USA
Nabendu Chaki, University of Calcutta, India
Khoa N. Le, Griffith University, Australia
Abdul Kadir Ozcan, The American University, Cyprus
Dhinaharan Nagamalai, The American University, Cyprus
John Karamitsos, University of the Aegean, Samos, Greece
Rakhesh Singh Kshetrimayum, Indian Institute of Technology, Guwahati, India
NetCoM-2009 Organizing Committee

General Chairs:

- Sanguthevar Rajasekaran, University of Connecticut, USA
- Maode Ma, Nanyang Technological University, Singapore
- Henrique Joao Lopes Domingos, University of Lisbon, Portugal

General Co-Chairs:

- Michal Wozniak, Wroclaw University of Technology, Poland
- Balasubramanian K, Lefke European University, Cyprus

Publicity Chairs:

- Hwangjun Song, Pohang University of Science and Technology, South Korea
- Geuk Lee, Hannam University, South Korea
- Robert C. Hsu, Chung Hua University, Taiwan

Steereing Committee:

- Natarajan Meghanathan, Jackson State University, USA
- Nabendu Chaki, University of Calcutta, India
- Khoa N. Le, Griffith University, Australia
- Dhinaharan Nagamalai, The American University, Cyprus
- Abdul Kadhir Ozcan, The American University, Cyprus
- John Karamitsos, University of the Aegean, Samos, Greece
- Rakhesh Singh Kshetrimayum, Indian Institute of Technology, Guwahati, India
NetCoM-2009 Program Committee Members:

Selma Boumerdassi, Conservatoire National des Arts et Metiers (CNAM), France
Waleed W. Smari, University of Dayton, USA
Vic Grout, Glyndwr University, North Wales, UK
Sajid Hussain, Acadia University, Canada
Seungmin Rho, Carnegie Mellon University, USA
Emmanuel Bouix, IKLax Media, France
Charalampos Z. Patrikakis, National Technical University of Athens, Greece
Chin-Chih Chang, Chung Hua University, Taiwan
Yung-Fa Huang, Chaoyang University of Technology, Taiwan
