

## The Second International Workshop on Internet Engineering & Web Services (InWeS 2011)

<http://airccse.org/inwes2011/inwes2011.html>

(In conjunction with WiMo ~ 2011) - June 26 ~ 28, 2011,

Venue : , Ankara, Turkey

### Call for Papers

2nd International workshop on Internet Engineering & Web services will provide an excellent international forum for sharing knowledge and results in theory, methodology and applications of Internet Engineering & Web services environment. Current information age is witnessing a dramatic use of digital and electronic devices in the workplace and beyond. Internet Engineering & Web services present a rather arduous requirement of robustness, reliability and availability to the end user. Internet Engineering & Web services has received a significant and sustained research interest in terms of designing and deploying large scale and high performance computational applications in real life. The aim of the workshop is to provide a platform to the researchers and practitioners from both academia as well as industry to meet and share cutting-edge development in the field.

### Topic of Interest

Authors are solicited to contribute to the workshop by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the following areas, but are not limited to

- |   |  |
|---|--|
| <ul style="list-style-type: none"><li>• Architectures and frameworks</li><li>• Coding and compression</li><li>• Collaborative systems &amp; techniques</li><li>• Distance learning</li><li>• E-business modeling and applications</li><li>• E-commerce applications</li><li>• Fault Tolerance</li><li>• Information retrieval</li><li>• Internet architecture design</li><li>• Internet search methods</li><li>• Internet Security &amp; Applications</li><li>• Knowledge-based web systems</li><li>• Multimedia web tools, architectures, and broadcasting</li></ul> | <ul style="list-style-type: none"><li>• Ontology and Web services</li><li>• Optimization methods</li><li>• Security and protection</li><li>• Semantic Web</li><li>• Software Agents</li><li>• Web data mining and database management</li><li>• Web Java-based applications</li><li>• Web languages</li><li>• Web service applications &amp; foundation</li><li>• Web Services-driven Business Process Management</li><li>• Wireless &amp; Mobile based applications, services</li></ul> |
|---|--|

### Paper submission

Authors are invited to submit papers for the workshop through ([Microsoft Submission System](#)) by **January 30, 2011**(for more details visit <http://airccse.org/inwes2011/inwes2011.html> ). Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this workshop. The workshop proceedings will be published by LNCS series along with the main conference proceedings (WiMo 2011). Selected papers from, after further revisions, will be published in *International journal of Computer Networks & Communications (IJCNC)*ISSN 0974 – 9322 (Confirmed).

International Journal of Wireless & Mobile Networks (IJWMN)  
International journal of Computer Networks & Communications (IJCNC)  
International journal of Network Security & Its Applications (IJNSA)  
International journal of computer science & information Technology (IJCSIT)  
International Journal of Database Management Systems ( IJDMS )  
Computer Science & Engineering: An International Journal (CSEIJ)

### Important Dates

**Submission Deadline: January 30, 2011**  
**Acceptance Notification: February 25, 2011**  
**Camera Ready: March 25, 2011**
