SCOPE OF THE JOURNAL

The International Journal of Computer Networks & Communications (IJCNC) is a bi monthly open access peer-reviewed journal that publishes articles which contribute new results in all areas of Computer Networks & Communications. The journal focuses on all technical and practical aspects of Computer Networks & data Communications. The goal of this journal is to bring together researchers and practitioners from academia and industry to focus on advanced networking concepts and establishing new collaborations in these areas.

Authors are solicited to contribute to this journal by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the Computer Networks & Communications.

Topics of interest include, but are not limited to, the following

- Network Protocols & Wireless Networks
- Network Architectures
- High speed networks
- Routing, switching and addressing techniques
- Next Generation Internet
- Next Generation Web Architectures
- Network Operations & management
- Adhoc and sensor networks
- Internet and Web applications
- Ubiquitous networks
- Mobile networks & Wireless LAN
- Wireless Multimedia systems
- Wireless communications
- Heterogeneous wireless networks
- Measurement & Performance Analysis
- Peer to peer and overlay networks
- QoS and Resource Management
- Network Based applications
- Network Security
- Self-Organizing Networks and Networked Systems
- Optical Networking
- Mobile & Broadband Wireless Internet
- Recent trends & Developments in Computer Networks

Paper Submission & Manuscript preparation Guide

Paper Submission

Authors are invited to submit papers for this journal through E-mail **ijcnc@airccse.org** . Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal.

Manuscript Template

Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. Weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.

Copy Right Form

After submitting final manuscript, you can get copy right form from AIRCC secretary

Special Issue Proposal

Special issue will be published for selected papers from RoEduNet IEEE International Conference 2010, Sibiu, Romania

Published Special Issues call for paper:

2011
Special issue On : "Wireless & Mobile Networks"
Special issue On : "Networks and Communications"
2012
Special issue On : "Recent Technologies in Networks & Communications"
Special issue On : "Networks and Communications"
Special issue On : "Advances in Networks and Communications"
Special issue On : "Ad Hoc and Sensor Networks"
2013
Special issue On : "Advances in Networks and Communications"
2014
Special issue On : "Network Technologies, Applications and Systems " New
