## Scope of the journal

The International Journal of Wireless & Mobile Networks (IJWMN) is a bi monthly open access journal that publishes articles which contribute new results in all areas of Wireless & Mobile Networks . The journal focuses on all technical and practical aspects of Wireless & Mobile Networks . The goal of this journal is to bring together researchers and practitioners from academia and industry to focus on advanced wireless & mobile networking concepts and establishing new collaborations in these areas.

Authors are solicited to contribute to this journal by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the Computer Networks & Communications.

### Topics of interest

- Architectures, protocols, and algorithms to cope with mobile & wireless Networks
- Distributed algorithms of mobile computing
- OS and middleware support for mobile computing and networking
- Routing, and communication primitives in ad-hoc and sensor networks
- Synchronization and scheduling issues in mobile and ad hoc networks
- Resource management in mobile, wireless and ad-hoc networks
- Data management on mobile and wireless computing
- Integration of wired and wireless networks
- Broadband access networks
- Energy saving protocols for ad hoc and sensor networks
- Complexity analysis of algorithms for mobile environments
- Information access in wireless networks
- Algorithms and modeling for tracking and locating mobile users

## Scope of the journal

- Satellite communications
- Cryptography, security and privacy of mobile & wireless networks
- Performance of mobile and wireless networks and systems
- Mobile ad hoc and sensor networks
- Wireless multimedia systems
- Service creation and management environments for mobile/wireless systems

## Editorial Board

### Editor In chief:

Nabendu Chaki, University of Calcutta, India

### Editorial Board:

Maode Ma, Nanyang Technological University, Singapore

Yao-Nan Lien, National Chengchi University, Taiwan, R.O.C.

## **Review Process**

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.

Publication charges: 120 USD (Maximum 20 pages)
