## SCOPE OF THE JOURNAL

International Journal of Computational Science and Information Technology (IJCSITY) focuses on Complex systems, information and computation using mathematics and engineering techniques. This is an open access peer-reviewed journal will act as a major forum for the presentation of innovative ideas, approaches, developments, and research projects in the area of Computation theory and applications. It will also serve to facilitate the exchange of information between researchers and industry professionals to discuss the latest issues and advancement in the area of advanced Computation and its applications

The topics suggested by this journal can be discussed in term of concepts, surveys, state of the art, research, standards, implementations, running experiments, applications, and industrial case studies. Authors are invited to submit complete unpublished papers, which are not under review in any other conference or journal in the following,

### Topics of interest include, but are not limited to, the following

- Algorithms and data structures
- Automata theory
- Computational complexity, economics, geometry
- Computational Physics & Biology
- Computational Science and Applications
- Cryptography
- Information theory
- Machine learning
- Natural Language Processing
- Parallel and distributed computing
- Probabilistic computation
- Program semantics and verification
- Quantum computation

# Paper Submission & Manuscript preparation Guide

## Paper Submission

Authors are invited to submit papers for this journal through E-mail: [ijcsity@airconline.com](mailto:ijcsity@airconline.com) or [Submission System](#). Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal.

## Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. weak Accept with major changes
4. Reject

The review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.

## Copyright Form

After submitting final manuscript, you can get copy right form from AIRCC secretary

## Special Issue Proposal

IJCSITY invite proposals for special issues on topics that fall within the scope of this journal. Please email your proposal to [ijcsityjournal@yahoo.com](mailto:ijcsityjournal@yahoo.com) or [ijcsity@airconline.com](mailto:ijcsity@airconline.com)
