ISSN: 2278 - 1307 [Online]; 2319 - 4111 [Print].

<http://airccse.org/journal/ijnlc/index.html>

## SCOPE OF THE JOURNAL

Natural Language Processing is a programmed approach to analyze text that is based on both a set of theories and a set of technologies. This forum aims to bring together researchers who have designed and build software that will analyze, understand, and generate languages that humans use naturally to address computers.

**Topics of interest include, but are not limited to, the following**

- Phonology, Morphology
- Chunking/Shallow Parsing
- Parsing/Grammatical Formalisms
- Semantic Processing
- Lexical Semantics
- Ontology
- Linguistic Resources
- Statistical and Knowledge based methods
- POS tagging
- Discourse
- Paraphrasing/Entailment/Generation
- Machine Translation
- Information Retrieval
- Text Mining
- Information Extraction
- Question Answering
- Dialog Systems
- Spoken Language Processing
- Speech Recognition and Synthesis

# Paper Submission & Manuscript preparation Guide

## Paper Submission

Authors are invited to submit papers for this journal through E-mail [ijnlcjournal@airccse.org](mailto:ijnlcjournal@airccse.org). Submissions must be original and should not have been published previously or be under consideration for publication while being evaluated for this Journal. For paper format download the template in this page.

## Review Process

Submissions are accepted for review with the understanding that the same work has been neither submitted to, nor published in, another publication. Simultaneous submission to other publications will result in immediate rejection of the paper. Papers are not within the journal scope will be rejected immediately after the pre review process.

All manuscripts will be subject to a well established, fair, unbiased peer review and refereeing procedure, and are considered on the basis of their significance, novelty and usefulness to the Journals readership. The reviewing structure will always ensure the anonymity of the referees & it will be reviewed by 3 experts in the field. The review output will be one of the following decisions:

1. Accept
2. Accept with minor changes
3. Weak Accept with major changes
4. Reject

the review process may take approximately two ~three months to be completed. The Editor reserves the right to reject a paper if it does not meet the aims and scope of the journal, it is not revised well.
